

Field application engineer (m/w/d)

LET'S CREATE YOUR NEXT SYSTEM

Haptics. Displays. Computers. Motors.

High-quality technical components, professional system solutions, and a partnership-based relationship** – that's what our customers and suppliers appreciate about us. Since 2001, we have been offering products in drive technology, industrial computers, as well as display and touchscreen solutions from world-leading manufacturers to our customers in the manufacturing industry. We are a dynamic team of visionaries, hands-on people, and implementers, always taking the "next step" for our customers, partners, and colleagues. To strengthen our team, we are looking for an employee in technical sales / field application engineer (m/f/d) for the earliest possible entry. **Location: Vienna**

Your TODOs

- Technical support of our customers in the selection and design of our solutions
- Identifying customer requirements and specifications, contributing to the sales process
- Supporting our field staff regarding display, touch, or HMI (Human Machine Interface) solutions, including those with haptic feedback
- On-site application support for customers (mainly in DACH and partly in Europe) - analyzing customer problems and developing solutions
- Communication and technical clarification with our suppliers (primarily in Asia) - demonstrating our products to customers
- Supporting evaluation and pilot projects and accompanying them until they reach series production

Your profile

- Completed technical education (HTL) or studies in electrical engineering, mechatronics, or a similar field
- Several years of professional experience in technical customer consulting
- Sales and customer orientation, as well as strong conceptual and analytical skills
- Technical knowledge in the selection and implementation of display and touch systems, as well as more complex HMI systems, including electronics, is an advantage
- A high degree of self-organization, commitment, and strong team spirit - Very good German and English skills
- High willingness to travel; a Class B driver's license is absolutely required

You can expect

- Work in a team-oriented company with a flat hierarchy
- A diverse range of tasks with a high degree of personal responsibility
- Project responsibility, including project management
- Flexible working hours
- The possibility of working from home after 6 months of training
- 50% meal allowance
- The opportunity for bike leasing - A minimum collective wage of € 2,605.00 gross per month, with a willingness **for a significant overpayment depending on qualifications and experience**
- Participation in a performance-based commission model

Ready for the next step?

We look forward to receiving your application at myjob@nextsystem.at
